Table of Contents

Preface	xiv
Acknowledgment	xvi
Chapter 1	
The Role of Artificial Intelligence in Cyber Security	1
<i>Karmel Arockiasamy, Vellore Institute of Technology, Chennai, India</i>	
Chapter 2	
The AI Application in Cybersecurity.....	25
<i>Kiranbhai Dodiya, Gujarat University, India</i>	
<i>Dipak Kumar Mahida, Gujarat University, India</i>	
<i>Ankita Patel, Gujarat University, India</i>	
<i>Kapil Kumar, Gujarat University, India</i>	
Chapter 3	
AI Applications in Cybersecurity: Worldwide and Saudi Arabia Focus	50
<i>Ahmad Fahad Aljuryyed, Robert Morris University, USA</i>	
<i>Nawaf Ahmed Almufarriji, University of Jeddah, Saudi Arabia</i>	
<i>Sulaiman Sami Refaee, University of Jeddah, Saudi Arabia</i>	
<i>Naif Ayub Hussain, University of Jeddah, Saudi Arabia</i>	
<i>Rayan Saadullah Aziz, King Abdulaziz University, Saudi Arabia</i>	
Chapter 4	
Artificial Intelligence for Information Security	85
<i>Lubana Isaoglu, Istanbul University-Cerrahpaşa, Turkey</i>	
<i>Derya Yiltas-Kaplan, Istanbul University-Cerrahpaşa, Turkey</i>	

Chapter 5

Hardware and Software Cyber Security Tools.....109

Tamalika Das, Pailan College of Management and Technology, India

Nabonita Nath, Pailan College of Management and Technology, India

*Kshounish Acharyya, Pailan College of Management and Technology,
India*

*Shirsa Chakraborty, Pailan College of Management and Technology,
India*

Parag Chatterjee, Pailan College of Management and Technology, India

Chapter 6

Zero Day Vulnerabilities Assessments, Exploits Detection, and Various
Design Patterns in Cyber Software132

*Vidhanth Maan Thapa, University of Petroleum and Energy Studies,
India*

*Sudhanshu Srivastava, University of Petroleum and Energy Studies,
India*

Shelly Garg, University of Petroleum and Energy Studies, India

Chapter 7

Detection of Phishing Websites148

*Lakshmipathi Gejjala, Kalasalingam Academy of Research and
Education, India*

*Muthukumar Arunachalam, Kalasalingam Academy of Research and
Education, India*

*Bala Manikanta Eswar Duggisetty, Kalasalingam Academy of Research
and Education, India*

*Jaswanth Kumar Reddy Vardireddy, Kalasalingam Academy of Research
and Education, India*

Chapter 8

Real-Time Object Detection in Video for Traffic Monitoring 166

*Sai Deepak Alapati, Kalasalingam Academy of Research and Education,
India*

*Muthukumar Arunachalam, Kalasalingam Academy of Research and
Education, India*

*Chandana Chennamsetty, Kalasalingam Academy of Research and
Education, India*

*Pujitha Dantam, Kalasalingam Academy of Research and Education,
India*

*Anusha Dabbara, Kalasalingam Academy of Research and Education,
India*

Kapil Kumar

Gujarat University, India

ABSTRACT

The 21st century is a century of technology. With the increase of new technology, life becomes easy, but as no technology is 100% safe and secure, every technology has some drawbacks. Information technology and cyber security are frequently used interchangeably. Nowadays, national and global security is at risk due to the world's growing reliance on a robust but vulnerable internet and the disruptive powers of cyber attackers. Various security agencies and cyber security researchers prepare the patch and prevention methods for detecting cybercrime, but it's not the proper solution for all types of cybercrime. The existential values of artificial intelligence led to a solution to many problems of cyber security. The main objective of the use of artificial intelligence in cyber security is to enhance the detection of the rate of cybercrime. Another application of artificial intelligence in cybersecurity is to improve the resistance and response to cyber-attacks.
